## Product Information Sheet

### 20" Industrial Surface Cleaner – 4500 PSI

#### KEY FEATURES

- Features
- Easy to Use: This accessory features a 3/8-inch QC connection, providing a universal fit that is easy to hook up to high pressure washer hoses.
- More Jets, More Clean, Less Time: With 10x more coverage than a standard nozzle, this surface cleaner has two high-pressure, rotating jets which provide quick, streak-free cleaning and allows you to complete your pressure washing projects in a fraction of the time.
- High Quality Materials and Construction: The powder-coated steel shroud and stainless steel nozzles provide protection against corrosion; the brass components and in-line filter provide durability. The shroud also helps to prevent overspray, keeping the user and surrounding areas dryer.
- Great for Industrial and Commercial Projects: The 20-inch diameter makes cleaning large surfaces such as driveways, patios, decks, sidewalks and more quick and easy. The lightweight ergonomic handle decreases operator fatigue.

#### TECHNICAL SPECIFICATIONS

Specification	Detail
UPC (Online)	879399002779
Maximum Pressure (PSI)	4500
Maximum Temperature	212°F
Deck Size	20" Heavy Duty Housing
Connection Type	3/8-inch Quick Connect

Materials	Powder-coated steel, stainless steel nozzles, brass components
Spray System	Dual high-pressure rotating jets
Application	Driveways, patios, decks, sidewalks, parking lots, shop floors

## COMPATIBILITY

- Compatible with most gas-powered pressure washers rated up to 4500 PSI.
- Designed for industrial and commercial surface cleaning applications.
